Incomes and personal tax and benefit measures

Robert Joyce

24 March 2022
Previously announced tax increases in April

- Freeze to personal allowance and higher rate income tax thresholds
  - Instead of default 3.1% increase in April
  - Raises £2.9bn in 2022-23
- 1.25ppt increase in all NICs rates
  - Raises £17.2bn in 2022-23

Newly announced tax cut in July: rise in employee and self-employed NICs threshold

- Costs £6.3bn in 2022-23
Previously announced:
- NI rate rise & IT threshold freeze

- NI threshold from July 2022
- NI threshold over whole of 2022-23

Gain/loss (£ per year)

Annual earnings
2022: other measures

- Previously announced
  - £150 grant to households in council tax bands A-D; £3bn in 2022-23
  - £200 giveaway to all households; £6bn in 2022-23
    - Recouped in subsequent 5 years
  - Fuel and alcohol duties frozen; £3.5bn in 2022-23

Newly announced
- Immediate 12-month (really?) 5p cut to fuel duties; £2.4bn in 2022-23
Distributional impact of tax & benefit reforms
Impact in 2022-23 of measures implemented from November 2021

Beyond 2022: direct tax measures

Previously announced income tax increases

- More freezes to thresholds up to and including 2025-26 (4-year freeze in total) – far bigger policies than intended
  - Total real cut to these thresholds by 2025 up from 7.5% to 16.4%
  - Expected saving has more than doubled to £17.8bn in 2025-26

After increase in July 2022, NICs threshold to be frozen (with personal allowance) for 3 years

- Meaning full-year cost roughly halves to £4.4bn in 2025-26

Newly announced income tax cut

- 1p off basic rate from April 2024; costs £6.1bn in 2025-26
Direct taxes in 2025-26 increased for virtually all workers by reforms announced this parliament.
Beyond 2022: other measures

- £200 per-household energy bill support gradually recouped

- Temporary (really?) 5p cut to fuel duty expires in March 2023
Incomes
We are set for the sharpest drop in real average earnings since 1970s...

### Notes:
- Figures in 2022/23 prices.
- First 3 households receive no benefits and have no working partner.
- UC worker is a lone parent homeowner with 2 children.
- "Real tax & benefit thresholds & rates" incorporates explicit policy reforms (NICs threshold rise, income tax freeze, changes to UC) as well as rates & thresholds by default rising more slowly than expected inflation.

## Median earner (£27,500)

- Change in real earnings: -£790 (-2.5%)

## 75th percentile earner (£41,600)

- Change in real earnings: -£360 (-1.6%)

## Full-time on NLW (£16,200)

- Change in real earnings: +£140 (+0.9%)

## Full-time on NLW & Universal Credit

- Change in real earnings: -£520 (-2.4%)
Real universal credit for workless single homeowner with 2 children

Notes: 2022Q2 prices. CPI forecasts from March 2022 EFO. 2023-24 benefits uprated using forecast 2023Q3 CPI.

- Benefit uprating each April
- UC uplift withdrawn
- 8.6% below pre-pandemic (2020Q1)
- 17.1% below 2021Q3

Benefits uprated in April 2023

£20/week UC uplift
Conclusions

Substantial package of help this year; less generous thereafter

Freezes to income tax thresholds now a very large policy

- In combination with NICs rate increase, means almost all workers will see a tax rise on earnings this parliament

Efforts to help low earners: UC increases, minimum wage rise, and NICS threshold increase announced today

Tax and benefit reforms progressive

- But impact of inflation worse for those dependent on benefits

An extremely challenging period ahead for living standards
